

Barnes & Jones is your single source for Steam Trap Service.

Low Pressure (VAC-25 PSIG) Steam Traps and Steam Heating Components

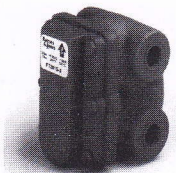

Thermostatic Steam Traps

VAC-25 PSIG. The finest radiator trap available. Manufactured in cast bronze, the housing is available in all installation patterns and in a complete range of sizes. Inlet/Outlet patterns available for angle, vertical and straightway. Pipe sizes: 1/2", 3/4" and 1". Specify pipe size and inlet/outlet configuration when ordering.

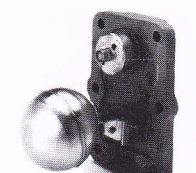

Low Pressure Cage Repair/Upgrade Interiors

Repair or upgrade over 800 different steam trap housings. The B&J Cage Unit replaces the old interior elements and seat with a 100% factory calibrated, pre-assembled thermostatic unit. Models available to renew every heating trap ever made including Dunham-Bush, Hoffman, Marsh, Trane, Sarco, Illinois, Warren Webster... and all other current and obsolete makes. Call or write for your free B&J Steam Trap Repair Guide with a complete cross index for ordering.

Low Pressure Float & Thermostatic Traps

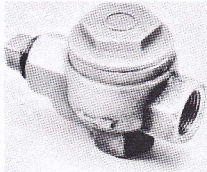

Constructed of heavy duty cast iron, these traps are available for 3/4", 1", 1 1/4", 1 1/2" and 2" pipe sizes in VAC-15 and VAC-30 PSIG ratings. All traps can be parallel piped with 3/4" through 1 1/2" sizes, having dual side inlets and outlets for ease of installation.

Low Pressure F & T Trap Repair Kits

Available for all B & J as well as most other manufacturers traps, every F & T Repair Kit includes ALL working parts including air vent, valve mechanism, float and gaskets. Where trap design allows, kits come factory assembled to a new head for ease of trap repair.

Industrial Steam Traps and Steam Specialties

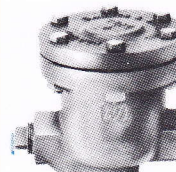

Medium/High Pressure Bronze Thermostatic Traps

VAC-250 PSIG. High capacity, high pressure steam trap for industrial applications. Manufactured of cast bronze, the housing allows both angle and straightway installation patterns. Pipe sizes: 3/8", 1/2", 3/4" and 1". Ideally suited for the cleaning, cooking, sterilizing, process and chemical industries. Specify pipe size when ordering.

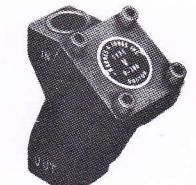

High Pressure Cage Repair/Upgrade Interiors

100% calibrated and factory assembled as a single drop in unit, B&J high pressure cage interiors are available to repair all B&J industrial traps as well as upgrade most other manufacturer's non-bucket type traps including many hard-to-find and obsolete makes.. Monel construction for pressures of VAC-300 PSIG. Call or write for your free B&J Steam Trap Repair Guide with a complete cross index for ordering.

High Pressure Thermostatic Traps

VAC-300 PSIG. Heavy duty, high capacity steam trap for the most demanding industrial applications. Manufactured of cast iron, the trap body accommodates both angle and straightway installation patterns. Specify 1/2" or 3/4" pipe size when ordering.

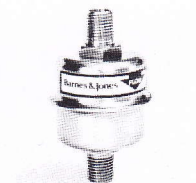

High Pressure Small-Body Traps

VAC-300 PSIG. B&J V-Traps are heavy duty workhorses for tracing and countless other applications. Cast iron, bolted cover and freeze proof, V-Traps are available in 1/2" and 3/4" pipe sizes.

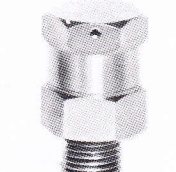

High Pressure Float & Thermostatic Traps

Constructed of heavy duty cast iron, these traps are available for 3/4", 1", 1 1/4", 1 1/2" and 2" pipe sizes in VAC-75 and VAC-125 PSIG ratings. All traps can be parallel piped, with 3/4" through 1 1/2" sizes having dual side inlets and outlets for ease of installation.

Compact, In-line Disposable Traps

A stainless steel, welded, "throw away" trap for use as both steam trap and air vent. 100% factory tested and calibrated, B&J compact traps are fast becoming a mainstay of the still, sterilizer and food process industries. Available with three interiors and two pressure ranges, B&J compact traps offer pipe sizes of 1/8", 1/4", 3/8" and 1/2". When ordering specify Diaphragm Actuator for VAC-80 PSIG (6 BAR), Bronze bellows for VAC-80 PSIG (6 BAR), or Monel bellows for VAC-125 PSIG (9 BAR) and pipe size.

Vacuum Breakers

Prevent damage from induced vacuum in mains, coils, radiation, etc. Compact, with stainless steel ball, plug and seat, and heavy brass housing. Available in 1/8", 1/4", 1/2" and 3/4" pipe size. Specify pipe size when ordering.

Bucket Traps

This heavy duty, cast iron mechanical trap is available in 1/2" and 3/4" pipe sizes, with four pressure ranges (VAC-25, VAC-60, VAC-125 and VAC-150 PSIG). All come standard with heat treated, stainless steel valve seats and plugs for extra long life in the most demanding environments.
