

#### Description

Pressure Change Kits (PCK) are used to repair or change the pressure rating of an inverted bucket trap. PCK kits include a new head gasket, stainless steel plug and seat, lever assembly, retainer and bolts.

To order a Pressure Change Kits, please specify the model bucket trap and the desired maximum operating pressure rating. Example: PCK-800-20, PCK-211-15

PCK's available for Series 8000 and Series 2000 Inverted Bucket Traps.  
Specify Pressure Rating

Model	Pressure Max. Operating (PMO)	Orifice
PCK-800	20, 80, 125, 150	3/16", 1/8", 7/64", #38
PCK-811, PCK-211	15, 30, 70, 125, 200, 250	1/4", 3/16", 5/32", 1/8", 7/64", 3/32"
PCK-812, PCK-212	15, 30, 70, 125, 200, 250	5/16", 1/4", 3/16", 5/32", 1/8", 7/64"
PCK-813, PCK-213	15, 30, 60, 80, 125, 180, 250	1/2" 3/8" 5/16" 9/32" 1/4" 7/32" 3/16"
PCK-814, PCK214	15, 30, 60, 80, 125, 180, 250	5/8", 1/2", 3/8", 11/32", 5/16", 9/32", 1/4"
PCK-815, PCK-215	15, 30, 60, 100, 125, 180, 225, 250	3/4", 9/16", 7/16", 3/8", 11/32", 5/16", 9/32", 1/4"
PCK-816, PCK-216	15, 25, 40, 60, 80, 125, 180, 250	1-1/16", 7/8", 3/4", 5/8", 9/16", 1/2", 7/16", 3/8"

Pressure Change Kit Construction	
Part	Materials
Gasket	HI-Temp, Compressed Non-Asbestos Gasket
Bolt/Nut	Grade 5 or 7
Valve & Seat	Stainless Steel
Retainer, Lever, Bucket	Stainless Steel

PCK kits are compatible with other makes of inverted bucket traps including Armstrong, Barnes & Jones, MEPCO, Nicholson and Watson McDaniel.

Please consult the factory for compatibility and kit selection. Refer to the IOM installation instructions for Pressure Change Kit assembly.
